

19 – 22 February 2019

WORKSHOP ON HARMONISING VTS VOICE COMMUNICATION

Westin Chosun Busan Hotel
Busan, Republic of Korea

KOREA COAST GUARD KOREA INSTITUTE OF MARITIME AND FISHERIES TECHNOLOGY

The International Association of Marine Aids to Navigation and Lighthouse Authorities (IALA), in association with the Korea Coast Guard and the Korea Institute of Maritime and Fisheries Technology (KIMFT), is hosting a workshop on Harmonising VTS Voice Communication in Busan, Korea, from 19-22 February, 2019. The working language for the workshop will be English.

BACKGROUND

IALA's Vessel Traffic Services (VTS) Committee is holding a workshop on Harmonising VTS Voice Communication.

- A key factor in achieving the full potential of VTS globally is the development of international standards for VTS Language that ensure effective communication, including structure and phraseology, which are suitable for both native and non-native English speakers.
- The 2012 IALA VTS Symposium recognised a compelling need to establish stand-alone communication procedures for VTS to facilitate clear and unambiguous transfer of information.
- A conclusion of the 2016 IALA VTS Symposium was that interaction and communication is not unique to VTS, and inspiration from other sectors, such as the aviation sector, may facilitate the development of enhanced and harmonized guidance on communication and phraseology.

GOALS

To assist in the development of IALA documentation and associated material addressing the delivery of VTS communication with a view to improve its effectiveness in both routine communication and in developing situations.

To promote IALA and its role in the maritime sphere.

PURPOSE

The purpose of the workshop is to facilitate the exchange of best practices, ideas and knowledge amongst a wide range of VTS professionals, linguists and those from other sectors to:

- Facilitate informed discussion and mutual understanding of the issues associated with VTS communication, both within and between, native and non-native English speakers.
- Contribute to the development of international standards for VTS Language to ensure effective communication, including structure and phraseology.
- Contribute to the formulation and development of IALA documentation related to VTS communication, such as:
 - Recommendation R0103 (V-103) and its associated Model Courses, with specific reference to the modules dealing with communication.
 - Guideline G1132 – VTS VHF Voice Communication.
 - Recommendation V-127 – Operational Procedures for Vessel Traffic Services.
 - Guideline 1089 – Provision of Vessel Traffic Services (INS, TOS and NAS).

TOPICS

The workshop will involve two working groups examining the following subjects:

Working group 1: Language and phraseology

- Explore and document key issues that contribute to communication difficulties from the perspective of:
 - non-native English speakers communication with native and non-native speakers; and
 - native English speakers communication with non-native speakers.
- Develop principles for VTS message construction and the development of common phraseology for clear and unambiguous communication.

10, rue des Gaudines - 78100 Saint Germain en Laye, France
Tél. +33 (0)1 34 51 70 01 - Fax +33 (0)1 34 51 82 05 - contact@iala-aism.org
www.iala-aism.org

International Association of Marine Aids to Navigation and Lighthouse Authorities
Association Internationale de Signalisation Maritime

- Identify and explore how VTS voice communication can best be incorporated in IALA documentation for Training and Certification of VTS Personnel.
- Identify and explore how the harmonized use of English VTS voice communication phrases between ship and shore for native and non-native speakers can be best utilized by international standards.

Working group 2: Training and Language Assessment

- Identify and document factors on how language and phraseology above can best be integrated with IALA documentation related to VTS communication, such as Recommendation R0103 (V-103) and its associated Model Courses with specific reference to the modules dealing with communication.
- Prepare guidance for the delivery of VTS English components of the R0103 (V-103) model courses to assist training organisations.
- Develop the framework and methodology to assist training organisations to assess trainees in a globally consistent manner.

ATTENDEES

The workshop is directed to all related international bodies with interest in VTS communication, such as IALA members, Competent Authorities for VTS, VTS Authorities, other maritime authorities, VTS training organisations, VTS personnel, VTS stakeholders, maritime professionals (e.g. masters, mariners, pilots), linguistic experts in transportation sector, marine accident investigators, etc.

REGISTRATION FEE

The registration fee for the workshop is EUR 300. It includes workshop material, lunches, coffee breaks and social events. Registration should preferably be made online on www.iala-aism.org, meetings and events. Participants who are unable to pay by credit card are invited to send the registration form at Page 4, duly filled in, by e-mail to contact@iala-aism.org.

Registrations to be made to IALA Secretariat by 5 February 2019 at the latest.

VENUE

The venue will be Westin Chosun Busan, Republic of Korea.
