

IALA COUNCIL
56th session

December 9-13, 2013
Goa
India

Agenda item 15 – MEMBERSHIP

15.1 Documents submitted for approval

15.1-2 Late applications for IALA Membership

Note by the Secretariat

The following applications were received very recently.

Applications for Industrial Membership

- ***Transfield Services Pty Ltd.; Australia.*** This company is specialized in land and marine infrastructure management. A letter of endorsement was received from Mr Graham Peachey and the applying process has just been finalized. A copy of the application form and the support letter are at pages 2 and 3.
- ***Shanghai Waterway Engineering Design & Consulting Co; Ltd; China.*** An application for Associate membership was received by 26th September, but according to its structure, the company was advised that Industrial Membership is more appropriate. The support letter from the National Member is still awaited but by phone call on 27 November, the Secretariat was notified that the support will be given by China MSA at the council meeting. A copy of their application form is at page 4.

The Council is invited to Approve these late applications for Industrial Membership.

CHIEF EXECUTIVE OFFICER

Mr Gary Prosser
Secretary General
International Association of Marine Aids to Navigation
and Lighthouse Authorities
10 rue des Gaudines
ST GERMAIN-EN-LAYE 78100
FRANCE

Dear Mr Prosser

I am writing to advise you of the Australian Maritime Safety Authority's support for the application by Transfield Services (Australia) Pty Ltd for membership of the IALA Industrial Members Committee.

Transfield Services (Australia) Pty Ltd are a land and marine infrastructure management company. Since 1995 Transfield Services have provided maintenance and related project services to the WA Department of Transport in respect to marine aids to navigation and other marine infrastructure, including marinas and wharves.

I would appreciate your forwarding this letter of endorsement to the IALA Council for consideration at its next meeting in December 2013.

Yours sincerely

GRAHAM PEACHEY

26 September 2013

Attn: Secretariat of IALA

Dear Sir or Madam,

ALSM - IALA
Ref: / Received:
Class: / Rev Ref:

RE: Application for Being an Associate Member of IALA

→ not applicable for A.M.
Industrial appropriate

CCCC Shanghai Waterway Engineering Design and Consulting Co., Ltd. was founded in 1960 and presently possesses the first batch of Class-A qualification certificates for the engineering design, consulting and survey of water transport works as well as the EPC contracting approved and issued by the state authority. We specialize our businesses in providing consulting service for the planning, assessment and tendering of water transport project; providing engineering design for the works of port, navigation channel, aids to navigation and vessel traffic service (VTS); offering hydrometric survey service; researching and developing specialized equipment for dredging vessels, navigation apparatus and survey instruments; offering project EPC management and supervision services, etc. In recent decade, we have accomplished more than 800 projects or cases of various types, among which over 100 are the navigation aids and VTS design, consulting and EPC projects, being mostly located in the channel waters of major ports (e.g. Shanghai, Ningbo, Tianjin, Guangdong etc.) and several large sea bridges in China. We have undertaken and completed the navigation aids and VTS design for the Yangtze Estuary Deepwater Channel Regulation Project, the Regulation of 12.5m Deepwater Channel in the Yangtze River downstream of Nanjing, Yangshan Deepwater Port Project, Donghai Bridge, Hong Kong – Zhuhai- Macau Bridge, etc. Recently, we are also engaged in the tender of several overseas projects.

In 2006 and 2010, we had delegates participated in the 16th and 17th Industrial Exhibition held by IALA and obtained plenty of information about the products of navigation aids. However, we regretted very much that we weren't able to have formal technical exchange with the members from all over the world since we were not a member of IALA.

No matter in the past or in the future, the goal we are always pursuing is to design a safe, unimpeded, cost-effective and highly environment-concerned navigation channel. For this purpose,

Shanghai Waterway Engineering Design and Consulting CO., Ltd

we apply to become an Associate Member of IALA, so that we can share our experiences when we are learning the technical achievements of various countries. We are willing to cooperate and work together with all members to make contributions to the continual improvement of the technology of navigation aids and the navigation safety of vessels.
