

11 – TECHNICAL ACTIVITIES

11.2 – ARM

11.2.1.1 – ARM10 summary report - complement

Note by the Secretariat

The 10th Session of the ARM Committee was held at IALA Headquarters from 14 to 18 October 2019.

The session was attended by 79 participants from 22 countries and two sister organisations. Ten participants attended for the first time and there were five observers.

The Committee continued the work for the 2018-2022 work period. Working in three working groups, the Committee considered 52 input papers including presentations and produced 52 output and working documents. All Recommendations and Guidelines considered were aligned with the proposed seven standards.

The Committee finalised liaison notes to:

- The China MSA and ENG Committee on AtoN provision in cold climates,
- China MSA on meteorological and hydrological monitoring in port waters,
- The ENG Committee on self-deploying wreck marker buoys,
- The PAP on Cyber Security, and
- The ENAV Committee on Maritime Resource Names.

The draft ARM Committee task plan and Committee website were updated. Natasha McMahon volunteered to be the ARM Committees liaison with the Secretariat to update the relevant sections of the NAVGUIDE. The following table shows a summary of progress made to date in the four year work period.

C70-11.2.1.1
