

## The IALA ANM Committee 2010-2014

*IALA Aids to Navigation Management Committee*

### Terms of Reference

#### Committee

The ANM Committee deals with high level management aspects of AtoN. In the work of the Committee, the following general aspects are to be taken into consideration:

- Strategic focus for IALA;
- Harmonized use of Definitions and Terms; and
- Concepts associated with Risk Assessment / Management.

#### Working Groups

The Working Group Chair and Vice chair to liaise with other work groups and Committee chair/vice chair on allocation of work, committee work program, working group output and support other working groups in this aim. Chair is to provide a WG report to the secretariat, in advance of closing plenary.

Working group to:

- Undertake a thorough review of input documents assigned to the working group
- Progress as per work plan guidelines and recommendations to completion
- Consider and respond to ad hoc liaison notes and other correspondence as it arises
- Raise any matters arising with the secretariat and/or committee chair/vice chair
- Provide output documents to Secretariat for inclusion and discussion in plenary

#### *WG1 Navigational requirements*

To undertake tasks from the work program with a mariner based bias to ensure the end user of AtoN services is properly supported and recognised.

#### *WG2 – Continuous improvement*

To undertake tasks from the work program with a review based bias to ensure the end user of AtoN services is properly supported and recognised.
